

# Camel Certificate

Certificate of donation for \_\_\_\_\_

Amount of donation CHF \_\_\_\_\_

This donation will go towards the Biovision Project “Camels for drought areas” in Isiolo, Kenya.

Camels cope much better with water shortages than cattle, goats and sheep. This is why Biovision is encouraging the spread of camels in the drought areas of Kenya. Camel husbandry, adapted to local needs together with the processing of camel milk generate income opportunities for local people, make a sustainable improvement to food security and at the same time protect sensitive ecosystems.

Our common goal is “End Hunger”. Many thanks for your support.

Dr Hans Rudolf Herren  
President of the Biovision Foundation
